#### Opportunity Description

---

- Provide technical support to a team of project managers, engineers, and inspectors on a wide range of civil engineering design and construction assignments. Working closely with a lead designer or engineer, this role would include engineering and drafting support in the preparation of design drawings, reports, and specifications. The role could also include field work providing routine site review and quality control inspections.

#### Required Qualifications

---

- Working towards a degree or diploma focused in civil engineering.
- Proficient with MS Office Suite (Word, Excel, Outlook).
- Proficient with AutoCAD (preferably Civil3D).

#### Other Skills + Abilities (an asset, but not required)

---

- Attention to detail and an ability to consistently produce complete and accurate work.
- Ability to learn on the job and apply new knowledge effectively.

#### Future Career Outcomes / Pathways

---

- Opportunity for regular full-time positions in drafting, engineering, civil design, and inspection positions.
